SC 10/12/19
Pecan Festival, Florence, SC 11/2/19**

Aug 8, 2019

Robinson's Ramblings'

This is the 2nd of two special editions that our newsletter editor put together from our trip to Auburn. This area is a center of automotive history and it is a place that you can learn a lot about how the auto industry developed over the years. Any time you have the chance to get into the quality museums that we were able to take advantage of you just do it!!! What an experience!!

 The National Auto and Truck Museum was not as ornate or as "fancy" as the ACD museum but it was well worth the time we spent looking at the vehicles that got us into big time transportation in the U.S. I hope you enjoy seeing the pictures of some special cars and trucks that Curt has put together. Again Curt's dedication to putting together a quality newsletter, not just to keep you informed, but to share what's out there and to share some of the great pictures he took at these museums is pretty special.

Give Curt a special THANK YOU when you see him. We are more than blessed to have him doing this very key function for all of us!!!

AL ROBINSON

The Editors Turn

This Special Edition of the Swamp Fox Old Car Club Newsletter is created to feature our tour of the National Auto and Truck Museum which we visited while at the 2019 AACA Annual Grand National Meet in Auburn, IN.

The NATM is located in two former factory buildings of the Auburn Automobile Company. The Service Building was built in 1923 and was used for test driving of automobiles, factory service and distribution of parts to distributors and dealers all over the world. The L29/Experimental Building was built in 1928-29 and was the first new building that E.L. Cord constructed after he assumed the management of the company.

The NATM features examples of post war cars and trucks that range from of 1907 to the 1960s. It also features a toy car and truck museum within the main museum that exhibits examples that range from 1894 to present.

Check out the detailed history of the NATM at their web site https//natmus.org/.

I encourage you to see it in person if you are ever in the northern Indiana area. Until then, I hope that you enjoy the picture tour of the National Auto and Truck Museum.
